

Toronto Citizens' Opinion on A Future Casinos*

For vs. Against And General Preferences

Ying Wen Bu

September 19, 2024

First sentence. Second sentence. Third sentence. Fourth sentence.

1 Introduction

We use R Core Team (2022), Wickham et al. (2019), Wickham et al. (2023), Gelfand (2022), Wickham (2016)

The remainder of this paper is structured as follows.

2 Data

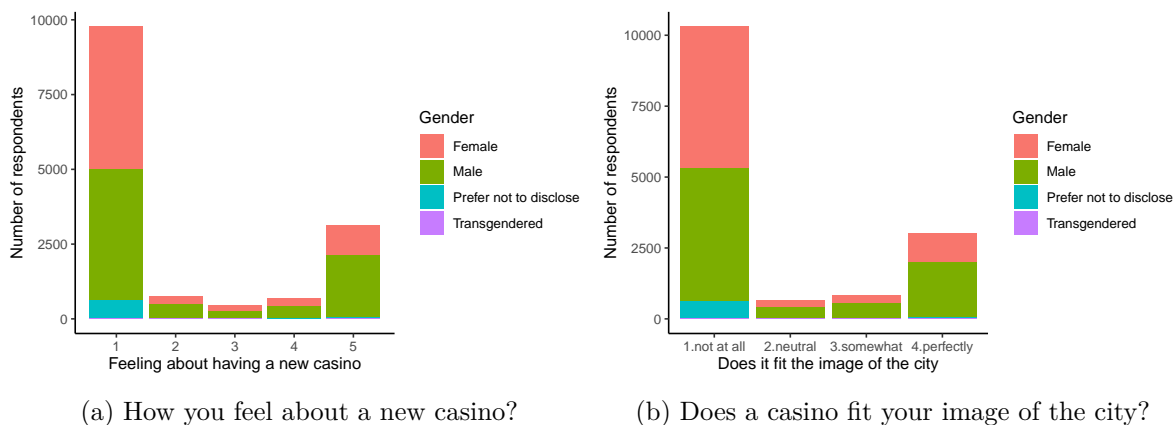

Figure 1: Attitude towards A New Casino

*Code and data are available at: https://github.com/annie142857/starter_folder/tree/main

Participants were asked on their feelings about having a new casino in Toronto, as shown in Figure 1a, where 1 means strongly opposed and 5 means strongly in favor. Almost 10000 participants strongly opposed the new casino, which is over half of the respondents. This tendency is slightly higher in women. Due to the low number of transgender participants, no observation can be drawn on their tendencies on this problem. Most of the participants have a strong opinion on this problem, and they either strongly opposed or are strongly in favor of a casino.

3 Results

4 Discussion

4.1 First discussion point

If my paper were 10 pages, then should be at least 2.5 pages. The discussion is a chance to show off what you know and what you learnt from all this.

4.2 Second discussion point

4.3 Third discussion point

4.4 Weaknesses and next steps

Weaknesses and next steps should also be included.

Appendix

A Additional data details

B Model details

B.1 Posterior predictive check
